MAC 400 SERIES FLOW METERS

The Mac 400 series injection moulded flow meters for beer, cider, spirits, wine and liqueur are made from plastic approved for food stuffs. The simple construction of the meter ensures high reliability and a long life. The flow meters are easy to mount due to their small size. The tube fittings are interchangeable to suite different tube sizes. The construction is watertight and can be opened for cleaning when needed. The flow meters have been approved by the Technical Inspection Center of Finland approval (#4587/420/94) and granted the German SK-approval SK 384-001.

SPIRITS

MAC 415

Approved measuring range: 1...8 cl
Approximate number of pulses: 25 pulses/cl
Pressure range: max 10 bar
Standard tube fittings: in 6,3 mm / out 6,3 mm
Length of connection cable: 1,5 m
